## Senior Software Developer

Accomplished Software Developer with over 8 years of experience in professional and freelance software engineering. Proficient in full-stack JavaScript development, with a strong focus on the MERN stack. Since 2022, I have been actively developing cross-platform mobile applications using Flutter, with two projects delivered or in progress. Holds a Master's degree in Computer Science and a Bachelor's degree in Computational Science, along with an English B2 certification. Currently training in prompt engineering to enhance AI-assisted development workflows. Recognized for delivering effective, client-oriented software solutions.
